Travelling Languages John O'Regan, Jane Wilkinson, Mike Robinson, 2015-10-14 Based on the commonly held assumption that we now live in a world that is 'on the move', with growing opportunities for both real and virtual travel and the blurring of boundaries between previously defined places, societies and cultures, the theme of this book is firmly grounded in the interdisciplinary field of 'Mobilities'. 'Mobilities' deals with the movement of people, objects, capital, information, ideas and cultures on varying scales, and across a variety of borders, from the local to the national to the global. It includes all forms of travel from forced migration for economic or political reasons, to leisure travel and tourism, to virtual travel via the myriad of electronic channels now available to much of the world's population. Underpinning the choice of theme is a desire to consider the important role of languages and intercultural communication in travel and border crossings; an area which has tended to remain in the background of Mobilities research. The chapters included in this volume represent unique interdisciplinary understandings of the dual concepts of mobile language and border crossings, from crossings in 'virtual life' and 'real life', to crossings in literature and translation, and finally to crossings in the 'semioscape' of tourist guides and tourism signs. This book was originally published as a special issue of Language and Intercultural Communication.

Enter the Animal Teya Brooks Pribac, 2021-02-01 Historically, grief and spirituality have been jealously guarded as uniquely human experiences. Although non-human animal grief has been acknowledged in recent times, its potency has not been recognised as equal to human grief. Anthropocentric philosophical questions still underpin both academic and popular discussions. In Enter the Animal, Teya Brooks Pribac examines what we do and don't know about grief and spirituality. She explores the growing body of knowledge about attachment and loss and how they shape the lives of both human and non-human animals. A valuable addition to the vibrant interdisciplinary conversation about animal subjectivity, Enter the Animal identifies conceptual and methodological approaches that have contributed to the prejudice against nonhuman animals. It offers a compelling theoretical base for the consideration of grief and spirituality across species and highlights important

ethical implications for how humans treat other animals.

The Arab Nahda as Popular Entertainment ,2023-11-16 What was popular entertainment like for everyday Arab societies in Middle Eastern cities during the long nineteenth century? In what ways did café culture, theatre, illustrated periodicals, cinema, cabarets, and festivals serve as key forms of popular entertainment for Arabic-speaking audiences, many of whom were uneducated and striving to contend with modernity's anxiety-inducing realities? Studies on the 19th to mid-20th century's transformative cultural movement known as the Arab nahda (renaissance), have largely focussed on concerns with nationalism, secularism, and language, often told from the perspective of privileged groups. Highlighting overlooked aspects of this movement, this book shifts the focus away from elite circles to quotidian audiences. Its ten contributions range in scope, from music and visual media to theatre and popular fiction. Paying special attention to networks of movement and exchange across Arab societies in Lebanon, Syria, Egypt, Iraq, and Morocco, this book heeds the call for 'translocal/transnational' cultural histories, while contributing to timely global studies on gender, sexuality, and morality. Focusing on the often-marginalized frequenters of cafés, artist studios, cinemas, nightclubs, and the streets, it expands the remit of who participated in the nahda and how they did.

Napoleonic Divorce Law in Poland (1808-1852) Piotr Z. Pomianowski,2022-01-31 In 1807 Napoleon Bonaparte created the Duchy of Warsaw from the Polish lands that had been ceded to France by Prussia. His Civil Code was enforced in the new Duchy too and, unlike the Catholic Church, it allowed the dissolution of marriage by divorce. This book sheds new light on the application of Napoleonic divorce regulations in the Polish lands between 1808-1852. Unlike what has been argued so far, this book demonstrates that divorces were happening frequently in 19th century Poland and even with the same rate as in France. In addition to the analysis of the Napoleonic divorce law, the reader is provided with a fully comprehensive description of parties as well as courts and officials involved in divorce proceedings, their course and the grounds for divorce.
